Mark Steed

RECORDED STATEMENT OF MARCUS PRAYER

ROBERT DEVON LOGGINS DEATH INVESTIGATION

MBI CASE NO.: M19-00000391

ME NO.: ME18-1164

DATE: 11/29/18

MS: Today's date is November 29, 2018. Present today is Mark Steed, MBI; Kenny Sanders, Grenada Police Department interviewing Mr. Marcus Prayer. The interview is regarding the death investigation of Robert Loggins that occurred on 11/29/2018.

Mr. Prayer, will you give us your date of birth and social security number, please?

MP: Date of birth is ; social security number is .

MS: What was those last four again, please?

MP: 8034.

MS: Where do you reside at?

MP: I stay at 60 West Govan Street.

MS: Have you been living there for a long time?

MP: Yeah.

MS: Were you living at, or staying at, that address last night?

MP: Yes, sir.

MS: Okay. So you were there all during the hours of this morning?

MP: Yes, sir.

MS: Okay. Can you tell me if you witnessed any actions by the Grenada Police Department or any law enforcement officials at your residence last night?

MP: No. I didn't witness anything.

MS: Okay. Did you hear anything?

MP: I heard the guy screaming. He was screaming real loud. The whole neighborhood heard it. Our neighbor across the street called the police, and I heard the lady's dog barking next door. And by the time I really got up, put on clothes and stuff, the police was coming in our backyard and my grandmother got like a garden. They went in the garden, and the guy was hollering. I didn't know he was back there. I thought he was – because we've got a big old fenced in, like a fenced in yard, and I thought he was actually behind our gate, like on the next street, but I didn't know he was in our yard. All I really heard was like the police was just telling him to put his hands behind his back and he wouldn't really put his hands behind his back for some reason.

MS: Did you see this or you just heard it?

MP: No. I heard it. I didn't see it.

MS: Now, I was at the property earlier this morning, and were you actually in your grandmother's residence or were you in the white residence that's right adjacent to your grandmother's house?

MP: I was in the white residence.

MS: Okay. And so the gate that you were telling me about, is there a little shed at the end that goes – that's by a gate?

MP: Yes, sir.

MS: Goes into a fenced, heavily grassy and kind of woody area; is that right?

MP: Yes, sir.

MS: Okay. So is that where all this took place?

MP: Yes, sir.

MS: This individual that was hollering and shouting out during the night, did you know this man?

MP: I didn't know him.

MS: Do you know what he was saying when he was hollering out?

MP: To me it sounded like he was saying, "Mama, why," but I'm not for sure because it was like early in the morning, and I had woke, but he was hollering out something.

MS: Okay. So you hear him hollering, so was he actually in your yard?

MP: Well, when the police – the police said he was. I'm not sure if he was at first. The first thing I heard was I heard a person hollering and it sounded like they was trying to beat on somebody's door or something like that. He was trying to – I don't know if he was trying – if he was calling out for help or he was trying to get in or something, but I heard a lot of beating and a lot of hollering, and that's what really woke me up.

MS: Okay. Did at any point in time did you see this man?

MP: No. I never seen him.

MS: Okay. And do you know who called the police?

MP: They told me the lady across the street, our neighbor, Ms. Booker. They said she called them. She was the one who called them.

MS: Did your grandmother ever come out of the residence that you know of?

MP: No. She stay in the brick house.

MS: Okay. So at some point in time, the police had to come into your yard, right?

MP: Yes, sir.

MS: At any point in time, did you ever see the police?

MP: When they was like leaving back through the gate. But I seen them like when they first came back there – well, I didn't like open the door where I was, but I seen the light, and I heard them going in the gate.

MS: Okay. Could you tell what they were saying?

MP: When they went back there, because it's like bushy back there, when they went back there, I guess the guy was on the ground, and they was telling him to put his hands behind his back.

MS: Okay. Did you hear any gunshots?

MP: No.

MS: Did you hear any popping noises?

MP: Not that I'm aware of, I didn't.

MS: Did you hear anything that sounded like a scuffle?

MP: No.

MS: Okay. Did you hear anybody verbally threaten anybody?

MP: No.

MS: Okay. Did you hear the police order the man to get down or did you hear them giving him commands?

MP: I heard him kept telling him to put his hands behind his back. They did say that. They said that several times.

MS: Okay. All right. Did you hear anything else from anybody else other than the police or this individual that they were trying to arrest?

MP: No.

MS: You mentioned that you heard this man beating on something. Did it sound like he was beating on the fence or your house or what?

MP: I'm not sure what exactly he might have been beating on.

MS: Okay. All right. So when the police, they were leaving the residence, did you see them carry the man out to the street?

MP: No.

MS: Okay.

MP: I seen them – well, they was going back through the gate with him, and I don't know, I guess he must have sat down because we've got a couch on the right as you come in our gate, it's a couch right there. I guess the man – I guess he sat down, and they was telling

him to get up. You know, I guess he sat down on the couch, and they just told him to get up.

MS: Okay. So let's clarify this. There's two gates in your backyard. There's one going into the grassy area?

MP: Uh-huh (affirmative response). And one as you come in the backyard.

MS: Okay. And so the one that you're talking about where the man sat down would have been under the carport like you're going to go into the back of your grandmother's house, right?

MP: Yes, sir.

MS: Okay. So that's where the man tried to sit down?

MP: Yes, sir.

MS: Okay. And did you see that?

MP: No. I didn't see it, but I heard them telling him to get up so I just figured that's what he did, he sat down.

MS: Okay. All right. Did you hear them tell the man anything other than to get up?

MP: No.

MS: Okay. Were they cussing the man or threatening the man or anything of that nature?

MP: No, sir.

MS: Was the man threatening or cussing the police?

MP: No.

MS: Okay. Where was your grandmother at that point in time?

MP: She was in the brick house.

MS: Did she witness any of this?

MP: No, sir.

MS: The people that are right next door, did they – do you know if they saw anything?

MP: I don't. I'm not sure.

MS: Okay. Was at any point in time, do you know if an ambulance ever responded to your residence?

MP: I heard one.

MS: Okay. Do you know what they said or did you hear them or anything?

MP: No.

MS: Okay. Did you see them load the man into the ambulance?

MP: No.

MS: Did you see the man loaded into the patrol car?

MP: No.

MS: Is there anything that you would like to add to your statement?

MP: No.

MS: And, Mr. Prayer, do you have a cell phone number that I could contact you at?

MP: Yes. 662-230-2568.

MS: 2568?

MP: Yes, sir.

MS: Okay. And one last question, are you currently employed anywhere?

MP: At Grenada Stamping.

MS: This concludes the interview with Mark Steed and Mr. Marcus Prayer. The interview ends at 12:39 p.m.

MISSISSIPPI BUREAU OF INVESTIGATION

Incident Date: November 29, 2018

Incident Description: Death Investigation

County: Grenada

MBI Case Number: M19-00000391

ME Number: ME18-1164

Agent: Mark Steed

Details: On November 29, 2018, Agent Mark Steed (Steed), Mississippi Bureau of Investigation (MBI), interviewed Rapheal Harvey, black male, date of birth [REDACTED], Social Security Account number [REDACTED], who resides at 113 King Street, Grenada, Mississippi 38901. Said interview was regarding the above captioned matter. Said interview was recorded and transcribed. The transcribed interview is attached hereto and made part of the casefile.

Mark Steed

RECORDED STATEMENT OF RAFFAEL HARVEY

ROBERT DEVON LOGGINS DEATH INVESTIGATION

MBI CASE NO.: M19-00000391

ME NO.: ME18-1164

DATE: 11/29/18

MS: Today's date is November 29, 2018. Present today is Mark Steed, MBI; William Blackmon, Investigator, District Attorney's Office 5th Judicial District, interviewing Raffael Harvey. The interview is taking place at the district attorney's office in Grenada, MS, and the interview is regarding the death investigation of Robert Loggins that occurred this date in Grenada.

Mr. Harvey, what is your date of birth?

RH:

MS: And your social security number?

RH:

MS: And, Mr. Harvey, just prior to this recording I read a Miranda Rights form to you; is that right?

RH: Yes, sir.

MS: And you understood that form and you signed it and you're willing to talk; is that correct?

RH: Yes, sir.

MS: Mr. Harvey, as I previously told you that this interview was about the death investigation of Robert Loggins. How are you employed?

RH: I was employed –

MS: Where are you employed?

RH: At the Grenada County Jail.

MS: Okay. And how long have you been there?

RH: Almost a month and a half.

MS: What capacity do you occupy?

RH: I occupy the male housing.

MS: The what now?

RH: The male housing at the back.

MS: Okay. Have you had any prior correctional experience prior to Grenada County?

RH: No, sir.

MS: Do you recall an incident that happened this morning where Robert Loggins passed away?

RH: Yes, sir.

MS: Can you explain that to me?

RH: Yes, sir. I was at the back with the male housing, just got finished with our head count. Sergeant Jones had just called me up to the booking area. He said like, "We've got a violent offender coming in so the Grenada Police Department will need our help." So we went out there, we went out there, and we helped them get him in. We sat him on the floor, and then they talking about they had – the Grenada Police Department had to leave so we helped them exchange the handcuffs out with our own. As doing that, Mr. Loggins was unable to – like he was – what's the word? He was not cooperating. So we held him down, and after that, it was like I had his hands, somebody else had his feet and two more people had his arms. Then some little short – one of them on the Grenada Police Department sat right here on his shoulders. He sat right here on his shoulder and like put his legs right here behind his shoulders and sat right here on the back of his neck.

MS: Okay.

RH: At that point in time, he was already detained so it wasn't no sense for him to actually go over there and do that to get handcuffs when he was already – basically, we had him already down. Then after that, we got his handcuffs off. We gave the policeman their handcuffs. Then they left. Right after Sergeant Clark already told them that he cannot stay here because he was already bleeding.

MS: Where was he bleeding?

RH: He had a few cuts on the side of his head, two – one on his left knee, one on his right knee. And he was bleeding out his mouth.

MS: Okay.

RH: I'm still learning things, but they told me that if anybody bleeding, you don't take them. And as Sergeant Clark was telling them this, they did not stop to come back to get this man. They all jumped in the car and left. So then when they left, we tried to pick him up and put him in the room, he was unresponsive. Like his legs were not moving, nothing was going on. Then we took the handcuffs off him from behind his back and put them in the front. After then he wasn't breathing. We cut the shirt off of him. We got the jacket off of him and cut the shirt off of him. Then we were trying to get ready to do CPR, but the paramedics had came and took over the scene.

MS: Whenever the police brought him in, did you help the police bring him in?

RH: Yes, sir.

MS: And you and?

RH: Sergeant Jones had him by his vest at first, and I had him by his feet because at first he was kicking and screaming. He was already screaming a little bit. So we picked him up by his feet, he just stopped moving. We just brought him in and sat him down and then he started back to wiggling, and then they wanted us as quickly as possible to exchange their handcuffs out.

MS: At that point there were several officers that surrounded Mr. Loggins when they went to change the handcuffs; do you remember that?

RH: Yes, sir.

MS: Was there anybody that may have kicked Mr. Loggins?

RH: Not that I have seen.

MS: Did anybody take their foot and try to roll him over?

RH: Not that I have seen, sir.

MS: Okay. Did anybody put their knee on his neck or head?

RH: The – I don't know his name, but as I explained earlier it was a little short one of the officers that sat right here. We already had him down on his stomach. He sat and put his legs right here, like all this right here, he put all this right here and just sat right there. He was already – he couldn't move already because we already had his arms and his legs. There wasn't no sense in him standing right there.

MS: Who was that officer?

RH: I don't know his – I'm still learning names, but I could pick him out of a crowd if you showed me.

MS: Okay. Was he a white or black guy?

RH: Short white guy.

MS: Okay. And have you saw him before?

RH: As of today, this was my second time seeing him. I don't know his name. I forget names, but I don't forget faces.

MS: Was he a police officer or a jailer?

RH: Police officer.

MS: Do you have anything, William?

WB: Yes. Do you know much about the policies and procedures of dealing with inmates yet?

RH: I'm still learning.

WB: Well, let me ask you this. Since the Grenada Police Department brought this individual in for, you know, to lock him up, is it normal that you would – is it something that you do all the time if a person comes in that's you get the call that he's potentially violent.

RH: That's the first one I've had.

WB: That's the first one of those you had? Okay. I guess what I'm asking is, I'm wondering why did you change the handcuffs? I know you had to give the officer his handcuffs back, but why wasn't he put in a cell if you – I mean, if you were going to keep him and then get the handcuffs taken off him that way? That way you don't have to recuff him.

RH: We was told – Ms. Clark done already told them that we was not – she kept saying multiple times that that was the system of getting the handcuffs. Then right after they said, "We've got to go. We've got to go. We've got to get the handcuffs." They got a call for all police to come back to the station. Then after then they left. They left in a hurry. She was telling them to take this man to the hospital. Like you already checked out, why are you bringing him here instead of going to the hospital?

WB: She said take him to the hospital?

RH: Yes, sir.

WB: All right. Is Officer Clark a female?

RH: Yes, sir.

WB: Do you know her first name?

RH: I do not know her first name.

MS: Who actually called for medical staff to come to the sheriff's office or to the county jail?

RH: I think she did. I cannot recollect because Officer Johnson was down here with me.

WB: Was it immediate that the person in charge said that – Sergeant Clark said that we're not going to keep Loggins here?

RH: As soon as she seen him bleeding, she told him, "No, we're not taking him. Take him to the hospital. You've got to get him out of here."

WB: Was that before or after they took the cuffs off of him?

RH: That was before we even got a chance to even put him down all the way, she told him we was not going to take him because he was bleeding, and they kept coming in – I was following Mr. Johnson and them. They were bringing him in so I was bringing him in to put him down.

MS: Based on what you saw, did you see that Mr. Loggins was mistreated or abused in any way?

RH: Look, when I looked at him – when I glanced at him, he had three missing teeth, like they were broken at the gum. I asked Mr. Johnson and Mr. Johnson said they was already like that, so I didn't – they seen him already before.

WB: So were the teeth missing or were they broken?

RH: They looked like they were broken at an angle, like broken just like this, at an angle.

MS: Okay. Did you see anybody hit him in the face?

RH: No, sir. Nobody touched him in the face. That I'm aware of, nobody touched him in the face.

MS: And you didn't see anybody kick him?

RH: No, sir. Nobody kicked him because I kept my eye on him the entire time. Nobody kicked him.

MS: Interview ends at 5:17 p.m.

Mark Steed

RECORDED STATEMENT OF EDNA CLARK

ROBERT DEVON LOGGINS DEATH INVESTIGATION

MBI CASE NO.: M19-00000391

ME NO.: ME18-1164

DATE: 11/29/18

MS: Today's date is November 29, 2018. Present today is Mark Steed, MBI; William Blackmon, Investigator, District Attorney's Office interviewing Ms. Edna Marie Clark. Ms. Clark, would you state your date of birth and social security number, please?

EC:

MS: Ms. Clark, how are you employed?

EC: I'm a sergeant at the Grenada County Jail.

MS: Do you work inside the jail?

EC: I do. Yes, sir.

MS: And how long have you been there?

EC: Seven years.

MS: And you understand what the interview is about today; is that right?

EC: I do. Yes, sir.

MS: The death investigation of Robert Loggins.

EC: Yes, sir.

MS: Can you tell me what happened this morning when all this transpired?

EC: I came to work this morning. I was in the process of doing my briefing with my shift, the oncoming shift, and the off going shift supervisor, Sgt. Johnson, come through the doors and said that there was a problem in admissions and needed my assistance with offender Robert Loggins.

I go through 38 and I didn't see Mr. Loggins. I saw several officers standing around him. I go around the counter. I look over and I see his condition, blood coming from his mouth. He had his pants down to his knees. His hands was restrained behind his back. He was sort of rolling from side to side. Looking at the young man, I told the officers, "Y'all are going to have to take him out of here. I'm not keeping him." They informed

me that the EMTs had checked him out and they determined that he was okay to go to jail.

I stated again, "Y'all take him out of here. I'm not taking him." At that time, they started taking the restraints off of him. Mr. Dean Tillie – they were evidently his restraints, his handcuffs. So he come around. He was going to take the restraints off of him. And my officers got on each side of him and was holding his shoulders because Mr. Loggins was, you know, rolling from side to side, flopping and trying to – to me he was trying to gasp for breath because he couldn't breathe. At that point, Mr. Dean Tillie, the officer, put his knee right here on the back of Mr. Loggins' head. He was on his stomach and he put his knee right here, but the position that Mr. Tillie was in, he couldn't get the restraints off. So he actually stood up, turned around and sat down on his head to take the restraints off. I'm telling them again, "I'm not going to keep him. Y'all need to take him out of here. I'm not going to book him in." One of the other young officers waived me off like he was dismissing me. That young man's name was Michael Jones. Michael Jones, Hal Merriman and Dean Tillie, those were the three officers in there. The officers picked him up. Mr. Hankins and Mr. Hollis, they picked him up and was going to take him down and I looked at him because he was limp. He couldn't stand up.

WB: What were the two officers' names again?

EC: Hollis and Hankins. They were on my shift. They picked him up and I turned around and I said, "Uh-uh, y'all bring him back." The laid him down. And for several minutes, you know, the officers and all stood around him for several minutes. They went on out. I went around – I called 911. I called EOC and was getting an ambulance dispatched to the jail. The young lady I spoke with from EOC stated that he was cleared by the EMTs. I said, "No. I need an ambulance here." I stated that – and I did a few things around the front desk. I went back around and his eyes – I'm going to take my glasses off and I'll show you – his eyes were like this. They were open but they wasn't open all the way.

So I looked down at him, and at that time I could tell there was something wrong. I checked his pulse right here. I checked it again. I put my hand right here and then when I couldn't feel no breath, I raised his shirt up and put my hand on his stomach to see if there was any movement. There wasn't anything. I informed the off going shift sergeant that he wasn't breathing. At that time, we started our process of what we was taught in CPR. It wasn't maybe two minutes, we got his vest off of him, we cut his shirt off, we cut both his shirts off and we started all of our process. And it was maybe two minutes and the EMTs come in and they started working on him.

MS: At any time did Mr. Loggins say anything?

EC: He was just rolling back and forth, back and forth, back and forth and according to what the officers said to me, when they found him he was saying, "Somebody help me, please. Somebody, help me, please." But he was not verbally saying anything that I heard.

MS: At the point that whenever the decision was made to take the handcuffs off of Mr. Loggins and there was several officers that kind of surrounded him in order to take these handcuffs off of him, did you see anybody that may have kicked Mr. Loggins?

EC: Not that I seen.

MS: Okay.

EC: Not that I seen.

MS: Have you heard that anybody may have kicked Mr. Loggins?

EC: No, sir, not that I seen and not that I heard. Mr. Loggins in the past, he's -- we've had him over at the jail quite a few times and he wasn't all that bad of a -- combative of an offender, but we've had problems. So in -- with our experience with him and the way he was brought in, I actually asked the -- they brought him like he was a sack of potatoes. I mean, just -- we've had problems with him in the past but he didn't seem like that combative to me because he was just going from side to side, side to side. He wasn't screaming. He wasn't hollering like he used to do. I mean, he wasn't doing anything. He wasn't flouncing around, just going from back to side to side like he was trying to roll over. And when they picked him up, he couldn't get his legs under him and he was just limp.

MS: Okay. And you saw blood coming out of his mouth?

EC: I did.

MS: And did you see any other type of injuries on him?

EC: He had like a cut on his face. As I said, he had some teeth missing. And he had an injury on both his knees and they were bleeding.

WB: Now when you say he had teeth missing, has he come into the jail before and those same teeth were missing?

EC: He's had beautiful teeth. He had beautiful teeth.

WB: So this is the first time you've seen his teeth missing?

EC: Uh-huh (affirmative response).

WB: Okay.

EC: That was something -- Rob Rob was very -- I mean, Robert Loggins was very proud of was his teeth.

WB: What was his nickname?

EC: Rob Rob. As I said, we've had experiences with Robert -- with Mr. Loggins.

MS: So did you hear anything from Mr. Loggins at any time at the jail say anything to the officers or the officers to him?

EC: He didn't say anything to the officers.

MS: Do you have anything else, William?

WB: No, sir.

MS: Ms. Clark, do you have anything else?

EC: No, sir. What I just told you is in my report, in the Incident Report of the day. Y'all are welcome to a copy of that, and I just finished it.

MS: Okay. The interview ends at 5:41 p.m.

MISSISSIPPI BUREAU OF INVESTIGATION

Said interview was regarding the above captioned matter. Said interview was recorded and transcribed. The transcribed interview is attached hereto and made part of the casefile.

Mark Steed

RECORDED STATEMENT OF JEROME C. JOHNSON

ROBERT DEVON LOGGINS DEATH INVESTIGATION

MBI CASE NO.: M19-00000391

ME NO.: ME18-1164

DATE: 11/29/18

MS: Today's date is November 29, 2018. Present today is Mark Steed, MBI; William Blackmon, Investigator, District Attorney's Office 5th Judicial District, interviewing Jerome C. Johnson.

Mr. Johnson, what's your date of birth?

JJ: .

MS: And your social security number?

JJ: .

MS: Are you here on your own free will?

JJ: Yes, sir.

MS: Have you been threatened or coerced to make this statement?

JJ: No, sir.

MS: And you understand what you're here for, right?

JJ: Yes, sir.

MS: And it's about an investigation, a death investigation, with Mr. Robert Loggins; is that correct?

JJ: Yes, sir. Yes, sir.

MS: Mr. Johnson, how are you employed?

JJ: Through the Grenada County Jail, I'm a shift supervisor.

MS: How long have you been employed there?

JJ: This will be going on my second year.

MS: And were you working at about 6:00 this morning at the jail?

JJ: Yes, sir.

MS: Were you there when an incident occurred involving Mr. Robert Loggins?

JJ: Yes, sir.

MS: Can you tell me how that happened?

JJ: Me and my shift was preparing to get ready to leave, and we got a call from EOC. My main patrol officer took the call, and she informed me that they had an offender coming in that was violent. So I called for my other male officer from the back, and when they arrived we went out to assist them in bringing him in. And the officer was pulling him out of the car, he was shaking and wiggling, struggling with them. So we helped pick him up, and we carried him into the building and placed him on the floor. I went to the front to get the new oncoming shift supervisor and her employees to help us out. And upon changing, we were changing out the handcuffs at this point. We got to where we were fixing to – so the officers detained him and we were switching out the handcuffs and putting the leg irons on.

Once the officers released him, he was laying on his stomach and the oncoming supervisor, she saw that he was, you know, bleeding out the mouth. So she informed the police officers that we're not going to keep him because he was bleeding out the mouth like that. So upon her going to call our warden and the deputy warden, the officers left. So she called the deputy warden, she called the warden and she called the ambulance because they gave her permission to call the ambulance because of the situation. So upon waiting on the ambulance, she went over and she tried to talk to him because, you know, he comes in often. We know who he is. But he wasn't responding to her. So when she notifies everybody that was standing there that, you know, he wasn't responding, we proceeded to prepare to perform CPR.

By the time we got ready to start performing CPR, the EMTs had come through the back door. And they had took over the situation or the scene until they decided they were going to take him on off to the hospital till they got him stable enough to move. And I followed along as security in the back of the ambulance and they performed CPR and stuff all the way to the hospital. And once we got there, somewhere around 7:03 they said they had just pronounced him dead.

MS: Whenever the police officer brought Mr. Loggins in to the jail and he was in the sally port and you and another officer went out to assist and bring Mr. Loggins in; is that correct?

JJ: Yes, sir.

MS: Was Mr. Loggins being combative at that time?

JJ: In the car he was, but once we got him out – when he was reaching in to grab him, he was pulling from them and rolling over, but once we got him out he was just – he wiggled a little bit but he wasn't really fighting as much as he was in the car.

MS: Did he say anything threatening?

JJ: No, sir. He never said anything threatening even when he was laid in the floor talking, he never threatened nobody. He was just talking, you know, off the wall stuff.

MS: Do you remember anything that he may have been saying?

JJ: He was quoting Bible passages. I don't know which ones.

MS: Bible passages?

JJ: Yes, sir. He got into it the last time he was there, but, you know, he'd quote some of them. He'll talk about a can't stop won't stop nation and what he be trying to do. He just talks off the wall sometime.

MS: Okay. So you have had prior dealings with Mr. Loggins?

JJ: Yes, sir.

MS: Did he act like this before?

JJ: Yes, sir. Usually when he come in off of drugs, he'll be a bit combative, but he mostly sometimes he'll calm down and you'll be able to talk to him or, you know, he'll be alright.

MS: Whenever it was determined that the handcuffs needed to be removed off Mr. Loggins where the jail could put their own handcuffs on him and there were several officers that surrounded Mr. Loggins; do you remember that?

JJ: Yes, sir.

MS: Where were you at during the course of that?

JJ: I was over by his head. The way it was, Officer Sanders got his legs. Officer Harvey had one of his arms around his back. Officer Tillie, the police officer, was up on his shoulders. He had one of his knees in his shoulders holding him down, and the young officer was on the other side. And me and the older police officer was standing right there.

MS: At any time during that procedure, did you kick or hit Mr. Loggins?

JJ: No, sir.

MS: Did you see anybody else kick Mr. Loggins?

JJ: No, sir.

MS: At the point that Mr. Loggins was laying down, he was laying on his hands, right?

JJ: At first he was on his hands. We had to roll him.

MS: Okay. And who was the first person that put their hands on Mr. Loggins?

JJ: I would believe it was Mr. Sanders when he grabbed him by the leg to put the leg irons on him.

MS: Okay. Did Mr. Sanders kick Mr. Loggins?

JJ: No, sir.

MS: Are you sure about that? Did anybody kick Mr. Loggins?

JJ: From the best of my knowledge, no, sir. Nobody kicked him.

MS: Okay. Did anybody roll him over with their foot or anything like that?

JJ: No, sir. When they rolled him over, they used their hands.

MS: Okay. Did anybody have their knee in Mr. Loggins' neck or on the side of his head?

JJ: No, sir. Mr. Tillie had it right up here in his back above – I'd say right along the shoulder blade.

MS: Okay. William, do you have anything?

WB: Yes. How long have you been the sergeant on the night – the 6:00 p.m. to 6:00 a.m.?

JJ: It's been a year.

WB: It's been a year. And you say you've dealt with Loggins?

JJ: Yes, sir. We've dealt with him before.

WB: Can you describe to me again when the officer said he needed his handcuffs back, can you describe to me again who did what and where were they?

JJ: Okay. Officer Sanders was at his legs because he was putting the leg irons on him. Officer Harvey had his arms. He was on the side on his arm. He had his arm holding it behind his back. The police officer, Mr. Tillie, had his knee, like I said, up in his shoulder blade. The other officer was on the side – on the other side of him and had the other arm and me and –

WB: The other two officers, do you know them by name?

JJ: I know one of them is Dale Tillie. That is the one that had his knee in his shoulder. And Mike Jones I think is the other one that was helping detain him.

WB: Are you familiar with what a restraint chair is?

JJ: Yes, sir.

WB: Is the Grenada County Jail equipped with a restraint chair?

JJ: No, sir.

WB: When a person comes in behaving like Mr. Loggins, do you normally leave them on the floor?

JJ: No, sir. But, like I said, he was in the floor, and he was responsive at the first moment. So, like I said, the moment we was trying to figure out what we was going to do with him because at first we was going to put him in 15, but he had went unresponsive.

WB: When everybody was around him, you know, the part I'm talking about where Mr. Sanders was on his feet, Mr. Tillie was on his shoulders, Mr. Harvey was at his mid-way to take the handcuffs off.

JJ: Yes, sir.

WB: And the other officers that were around, you said Mr. Jones was where?

JJ: Mr. Jones was on the other side with his other arm and on his mid-section.

WB: Did anybody have a knee, a foot, a leg on Mr. Loggins' back?

JJ: No, sir. The only person that had a knee on him was Officer Tillie and he had it up on his shoulder.

WB: So when you walked up to him to take the handcuffs off, he was still moving around?

JJ: Yes, sir.

WB: When you got the officer's handcuffs off and your handcuffs on, he was unresponsive?

JJ: When they was unlocking them, he was struggling with them. And then they finally maneuvered him around and got the other ones on him and took the other ones off. When they came off, he was unresponsive.

WB: Did he make any noise or complain of pain or say, "I'm hurt," "I need help."

JJ: No, sir.

WB: And you were right there so you would have heard?

JJ: Yes, sir.

MS: I don't have anything else. This concludes the interview with Jerome Johnson. The interview ends at 4:58 p.m.

Mississippi Criminal History Record
Information on file as of MARCH 27, 2019

1. INTRODUCTION

This record contains information contained in the criminal history file of Mississippi Department of Public Safety on the date it was prepared; if information is needed later, a new inquiry should be made. This information is based on fingerprint identification.

If the request for this information did not include fingerprints, this record may not describe the subject of the inquiry.

There may be further information concerning this subject in local files.

Use of this information is subject to state and federal law and is limited to the purpose stated in the inquiry. Misuse is subject to criminal and civil penalty.

Offenses are marked as felonies, misdemeanors or violations in accordance with Mississippi law.

2. SEX OFFENDER DATA

Mississippi Criminal History Record
 Information on file as of NOVEMBER 29, 2018

1. INTRODUCTION

This record contains information contained in the criminal history file of Mississippi Department of Public Safety on the date it was prepared; if information is needed later, a new inquiry should be made. This information is based on fingerprint identification.

If the request for this information did not include fingerprints, this record may not describe the subject of the inquiry.

There may be further information concerning this subject in local files.

Use of this information is subject to state and federal law and is limited to the purpose stated in the inquiry. Misuse is subject to criminal and civil penalty.

Offenses are marked as felonies, misdemeanors or violations in accordance with Mississippi law.

2. SEX OFFENDER DATA

No Sex Offender data.

PATHOLOGICAL EXAMINATION

Loggins, Robert

Case No. ME18-1164

County: Grenada

Sex: M

Age: 26

Race: B

Date and Time of Autopsy: November 30, 2018 at 0900 Hours

FINAL PATHOLOGIC DIAGNOSES

PRIMARY DIAGNOSES:

I. Methamphetamine Toxicity

- A. Evidenced by:
 - 1. No lethal natural disease
 - 2. No lethal traumatic injury
- B. Resulting in:
 - 1. Fatal cardiac arrhythmia
- C. Associated with:
 - 1. Abrasions and contusions, (head, hands and legs)
 - 2. Puncture marks (back)

NMS v.18.0

CERTIFIED REPORT

NAME Robert D. Loggins
CASE # ME18-1164

IDENTIFICATION:

A postmortem examination was performed on the body of Robert Loggins at the Mississippi State Medical Examiner's Office in Jackson, Mississippi, on November 30, 2018 by Dr. Mark M. LeVaughn, Chief Medical Examiner.

EXTERNAL EXAMINATION:

The body is that of a normally developed adult male who appears to be the stated age of 26 years. The eyes are brown. The hair is black. The teeth are natural. Rigidity is 4+/4+. Lividity is poorly discernible. Clothing on the body consists of black underwear, white socks, blue jean shorts, brown shoes (boots) and a black shirt.

EVIDENCE OF TREATMENT:

EKG and defibrillator pads are on the chest. An ET tube is in the mouth and the tip is in the trachea

EVIDENCE OF INJURY:

There is no identifiable evidence of external or internal traumatic injury that would have caused his death. A 3 cm contusion is on the right forehead. A 3 cm contusion is on the left forehead. A 4 cm contusion is in the subcutaneous tissue of the right posterior neck. A 1 x 2 cm abrasion is on the left side of the face. There are three 1-2 cm abrasions on the mid forehead. A 4 x .1 cm abrasion is on the right side of the head. A 1 cm abrasion is on the knuckle area of the right hand. 1-2 cm abrasions are on the anterior right and left knee. Two 1 mm puncture type injuries are on the back.

INTERNAL EXAMINATION:

HEAD AND NECK:

Dissection of the scalp shows no evidence of soft tissue injury or skull fracture. Internal examination of the cranial cavity shows no evidence of hemorrhage or exudate. The dura and leptomeninges are unremarkable. The brain weighs 1380 grams. The vessels at the base of the brain form an essentially normal circle of Willis and are patent. The cranial nerves are unremarkable. There is no evidence of brain swelling or herniation. The sulci and gyri are normally developed. The cerebral and cerebellar hemispheres are roughly symmetric and the brain stem is in the midline. Multiple sections of the brain show well-demarcated gray and white matter. The ventricular system is in the midline, not enlarged and wet with clear cerebral spinal fluid. The basal ganglia are unremarkable. There is no evidence of pathologic change or traumatic injury on multiple cut surfaces of the brain. Multiple sections of the brainstem and cerebellum show no pathologic change or traumatic injury. Examination of the floor and the base of the skull show no evidence of fracture.

NAME Robert D. Loggins
CASE # ME18-1164

HEAD AND NECK (Continued):

There is no pathologic change or traumatic injury within the oral cavity. Dissection and examination of the neck shows no pathologic change or traumatic injury to the soft tissue, cartilaginous or vascular structures of the neck. The carotid arteries and jugular veins are patent. The upper airway is patent. The thyroid gland is unremarkable.

CHEST:

Dissection of the anterior chest shows no evidence of deep soft tissue injury, rib or sternal fracture. Internal examination of the chest cavity shows the heart and lungs with the usual shape and in the usual position. The heart weighs 399 grams. The predicted mean weight is grams. The right lung weighs 550 grams. The left lung weighs 500 grams. The pericardial and pleural cavities are wet with serous fluid. The great vessels arise from and return to the heart in a normal manner. There are no pericardial or pleural adhesions. The epicardial and pericardial surfaces of the heart are smooth. Multiple sections of the coronary arteries are patent. Multiple sections of the heart show red-brown myocardium with no hemorrhage, scarring or necrosis. The endocardial surfaces are smooth and the valves are thin and flexible with no fusion, vegetation or thickening. The posterior mediastinum including the aorta, esophagus and lymph nodes are all unremarkable. The external and cut surfaces of both lungs are red-pink and purple. The cut surfaces show congestion and edema with no evidence of consolidation, tumor or emboli. The proximal and distal airways are patent. The posterior ribs, lower cervical and thoracic vertebrae show no pathologic change or traumatic injury. The thoracic aspect of the diaphragm is unremarkable.

ABDOMEN:

The peritoneal cavity is wet with serous fluid. The gastrointestinal tract including the esophagus shows no pathologic change or traumatic injury. The stomach contains approximately 100 cubic centimeters of thick red brown liquid. The mucosal surfaces are intact with no evidence of hemorrhage or ulcer. The remaining abdominal visceral organs have the usual shape and are in the usual position. The external and cut surfaces of the liver, gallbladder, pancreas, spleen, adrenal glands and kidneys show no other pathologic change or traumatic injury. Within the pelvis, the ureters and urinary bladder show no traumatic injury or pathologic change.

MICROSCOPIC DESCRIPTION:

None

NAME Robert D. Loggins
CASE # ME18-1164

CAUSE OF DEATH: Methamphetamine Toxicity

MANNER OF DEATH: Accident

OPINION:

This 26 year old male identified as Robert D. Loggins died as a result of the cardiotoxic effects of Methamphetamine, cardiac arrhythmia. There was no identifiable evidence of natural disease that would have caused or contributed to his death. Although several abrasions and contusions were present, there was no identifiable evidence of traumatic injury that would have caused or contributed to his death. With the currently available information, toxicology and and postmortem findings, the cause of death is Methamphetamine Toxicity and the manner of death is Accident

VICTIM: Robert D. Loggins

REQUEST FOR ANALYSIS

On 11/30/2018 it was requested that the TOXICOLOGY section perform the following analysis: Postmortem Reference Lab. This examination was completed on 1/2/2019.

EVIDENCE

11/30/2018 at 2:35 PM, Forensic Scientist Lynee Boackle received the following evidence from the MS STATE MEDICAL EXAMINER via Heather McLendon:

Submission 001	One sealed plastic bag labeled "Robert Loggins" containing biological specimens.
Submission 001-A	Four grey top tubes of blood contained in a sealed plastic bag.
Submission 001-B	One red top tube of vitreous fluid contained in a sealed plastic bag.
Submission 001-C	One red top tube of urine contained in a sealed plastic bag.
Submission 001-D	One red top tube of bile contained in a sealed plastic bag.
Submission 001-E	One specimen container of gastric contents contained in a sealed plastic bag.

RESULTS

Submission #: 001

*See remark below

Submission 001 was submitted to NMS Labs for analysis. See attached report.

This report represents the analytical results of the examinations performed on the items of evidence in this case. It should be noted that this report does not represent all documentary items contained in the master file. Should additional material be required for court purposes, please contact the laboratory as soon as possible.

All samples submitted for toxicological examination will be routinely disposed of six (6) months after analyses are completed. If you anticipate that this evidence will be needed, please contact the laboratory to arrange for its return.

Detailed Findings:

Analysis and Comments	Result	Units	Rpt. Limit	Specimen Source	Analysis By
Naloxone	Positive	ng/mL	1.0	001 - Femoral Blood	LC/TOF-MS
Delta-9 Carboxy THC	5.2	ng/mL	5.0	001 - Femoral Blood	LC-MS/MS
Delta-9 THC	1.4	ng/mL	0.50	001 - Femoral Blood	LC-MS/MS
Amphetamine	43	ng/mL	5.0	001 - Femoral Blood	LC-MS/MS
Methamphetamine	600	ng/mL	5.0	001 - Femoral Blood	LC-MS/MS

Other than the above findings, examination of the specimen(s) submitted did not reveal any positive findings of toxicological significance by procedures outlined in the accompanying Analysis Summary.

Reference Comments:

1. Amphetamine - Femoral Blood:

Amphetamine (Adderall, Dexedrine) is a Schedule II phenethylamine CNS-stimulant. It is used therapeutically in the treatment of narcolepsy and obesity and also in the treatment of hyperactivity in children. Amphetamine has a high potential for abuse. When used in therapy, initial doses should be small and increased gradually. In the treatment of narcolepsy, amphetamine is administered in daily divided doses of 5 to 60 mg. For obesity and children with attention deficits, usual dosage is 5 or 10 mg daily.

Following a single oral dose of 10 mg amphetamine sulfate, a reported peak blood concentration of 40 ng/mL was reached at 2 hr. Following a single 30 mg dose to adults, an average peak plasma level of 100 ng/mL was reported at 2.5 hr. A steady-state blood level of 2000 - 3000 ng/mL was reported in an addict who consumed approximately 1000 mg daily.

Overdose with amphetamine can produce restlessness, hyperthermia, convulsions, hallucinations, respiratory and/or cardiac failure. Reported blood concentrations in amphetamine-related fatalities ranged from 500 - 41000 ng/mL (mean, 9000 ng/mL). Amphetamine is also a metabolite of methamphetamine, benzphetamine and selegiline.

2. Delta-9 Carboxy THC (Inactive Metabolite) - Femoral Blood:

Delta-9-THC is the principle psychoactive ingredient of marijuana/hashish. Delta-9-carboxy-THC (THCC) is the inactive metabolite of THC. The usual peak concentrations in serum for 1.75% or 3.55% THC marijuana cigarettes are 10 - 101 ng/mL attained 32 to 240 minutes after beginning smoking, with a slow decline thereafter. The ratio of whole blood concentration to plasma concentration is unknown for this analyte. THCC may be detected for up to one day or more in blood. Both delta-9-THC and THCC may be present substantially longer in chronic users. THCC is usually not detectable after passive inhalation.

3. Delta-9 THC (Active Ingredient of Marijuana) - Femoral Blood:

Marijuana is a DEA Schedule I hallucinogen. Pharmacologically, it has depressant and reality distorting effects. Collectively, the chemical compounds that comprise marijuana are known as Cannabinoids.

Delta-9-THC is the principle psychoactive ingredient of marijuana/hashish. It rapidly leaves the blood, even during smoking, falling to below detectable levels within several hours. Delta-9-carboxy-THC (THCC) is the inactive metabolite of THC and may be detected for up to one day or more in blood. Both delta-9-THC and THCC may be present substantially longer in chronic users.

THC concentrations in blood are usually about one-half of serum/plasma concentrations. Usual peak levels in serum for 1.75% or 3.55% THC marijuana cigarettes: 50 - 270 ng/mL at 6 to 9 minutes after beginning smoking, decreasing to less than 5 ng/mL by 2 hrs.

4. Methamphetamine - Femoral Blood:

d-methamphetamine is a DEA schedule II stimulant drug capable of causing hallucinations, aggressive behavior and irrational reactions. Chemically, there are two forms (isomers) of methamphetamine: l- and d-methamphetamine. The l-isomer is used in non-prescription inhalers as a decongestant and has weak CNS-stimulatory activity. The d-isomer has been used therapeutically as an anorexigenic agent in the treatment of obesity and has potent CNS-, cardiac- and circulatory-stimulatory activity. Amphetamine and norephedrine (phenylpropanolamine) are metabolites of methamphetamine. d-methamphetamine is an abused substance because of its stimulatory effects and is also addictive.

NMS v.18.0

Laboratory Report Continued

Page 5 of 6

CONFIDENTIAL

Workorder 18353214
Chain 18353214
Patient ID 18-18469

Page 3 of 4

Reference Comments:

A peak blood concentration of methamphetamine of 20 ng/mL was reported at 2.5 hr after an oral dosage of 12.5 mg. Blood levels of 200 - 600 ng/mL have been reported in methamphetamine abusers who exhibited violent and irrational behavior. High doses of methamphetamine can also elicit restlessness, confusion, hallucinations, circulatory collapse and convulsions.

*In this case, the level of methamphetamine determined has not been differentiated according to its isomeric forms. Differentiation of the isomers of methamphetamine is available upon request.

5. Naloxone (Narcan®) - Femoral Blood:

Naloxone is a narcotic antagonist used to counter the central nervous system depression effects of opioids, including respiratory depression. It is also used for the diagnosis of suspected acute opioid overdose. Naloxone is available as a 0.4 mg/mL solution of the hydrochloride for parenteral injection.

Naloxone is also available in combination with buprenorphine (Suboxone®) for the treatment of opioid dependence. This combination is available in tablets of 2 mg buprenorphine with 0.5 mg naloxone or 8 mg buprenorphine with 2 mg of naloxone for sublingual administration.

The reported qualitative result for this substance was based upon a single analysis only. If confirmation testing is required please contact the laboratory.

Unless alternate arrangements are made by you, the remainder of the submitted specimens will be discarded six (6) months from the date of this report; and generated data will be discarded five (5) years from the date the analyses were performed.

Certifying Scientist

Analysis Summary and Reporting Limits:

All of the following tests were performed for this case. For each test, the compounds listed were included in the scope. The Reporting Limit listed for each compound represents the lowest concentration of the compound that will be reported as being positive. If the compound is listed as None Detected, it is not present above the Reporting Limit. Please refer to the Positive Findings section of the report for those compounds that were identified as being present.

Acode 52198B - Cannabinoids Confirmation, Blood - Femoral Blood

-Analysis by High Performance Liquid Chromatography/ Tandem Mass Spectrometry (LC-MS/MS) for:

Compound	Rpt. Limit	Compound	Rpt. Limit
11-Hydroxy Delta-9 THC	1.0 ng/mL	Delta-9 THC	0.50 ng/mL
Delta-9 Carboxy THC	5.0 ng/mL		

Acode 52485B - Amphetamines Confirmation, Blood - Femoral Blood

-Analysis by High Performance Liquid Chromatography/ Tandem Mass Spectrometry (LC-MS/MS) for:

Compound	Rpt. Limit	Compound	Rpt. Limit
Amphetamine	5.0 ng/mL	Norpseudoephedrine	5.0 ng/mL
Ephedrine	5.0 ng/mL	Phentermine	5.0 ng/mL
MDA	5.0 ng/mL	Phenylpropanolamine	5.0 ng/mL
MDEA	5.0 ng/mL	Pseudoephedrine	5.0 ng/mL
Methamphetamine	5.0 ng/mL		

Acode 8052B - Postmortem, Expanded, Blood (Forensic) - Femoral Blood

Analysis Summary and Reporting Limits:

-Analysis by Enzyme-Linked Immunosorbent Assay (ELISA) for:

<u>Compound</u>	<u>Rpt. Limit</u>	<u>Compound</u>	<u>Rpt. Limit</u>
Barbiturates	0.040 mcg/mL	Salicylates	120 mcg/mL
Cannabinoids	10 ng/mL		

-Analysis by Headspace Gas Chromatography (GC) for:

<u>Compound</u>	<u>Rpt. Limit</u>	<u>Compound</u>	<u>Rpt. Limit</u>
Acetone	5.0 mg/dL	Isopropanol	5.0 mg/dL
Ethanol	10 mg/dL	Methanol	5.0 mg/dL

-Analysis by High Performance Liquid Chromatography/Time of Flight-Mass Spectrometry (LC/TOF-MS) for: The following is a general list of compound classes included in this screen. The detection of any specific analyte is concentration-dependent. Note, not all known analytes in each specified compound class are included. Some specific analytes outside these classes are also included. For a detailed list of all analytes and reporting limits, please contact NMS Labs.

Amphetamines, Anticonvulsants, Antidepressants, Antihistamines, Antipsychotic Agents, Benzodiazepines, CNS Stimulants, Cocaine and Metabolites, Hallucinogens, Hypnotosedatives, Hypoglycemics, Muscle Relaxants, Non-Steroidal Anti-Inflammatory Agents, Opiates and Opioids.

Grenada County Sheriff's Department

Event Type	Start Date	Start Time
UNRESPONSIVE OFFENDER	11/29/2018	5:59 AM

Notes

On November 29, 2018 at approximately 0559 hrs, While conducting my briefing before starting my shift Sgt Johnson D shift supervisor stated to me Sgt Clark that there was a problem in booking with incoming offender Robert Loggins #160212. Officers Moody, Sanders, Hollis and Hankins and I entered admissions. Grenada Police Department Officers Hal Merriman badge # 29, Michael Jones badge # 44, and Dean Tilley badge # 39 and GCADC Officer Rafeal Harvey and shift Supervisor Sgt. J Johnson had Robert Loggins on the floor in admissions. After seeing the condition of Mr. Loggins he had blood coming from his mouth, he appeared to be in distress. I Sgt. Clark stated to officers Merriman, Jones and Tilley that I was not going to keep the offender. At that time it was stated that the EMT had checked Mr. Loggins out and that he Mr. Loggins had been cleared to be brought to jail. I stated again that I was not going to keep him. GPD Officers Merriman, and Jones went out door 19 with Officer Jones waving me off as I keep telling them that I was not going to keep him. Officer Tilley was left to retrieve his hand cuffs from the offender. Offender Loggins was moving from side to side Officers Hollis, Harvey, Sanders, along with Sgt. Johnson assisted Officer Tilley by holding the offender Loggins arms and legs, officer Tilley placed his knee on the back of offender Loggins head, Officer Tilley was unable to take the cuffs off he Officer Tilley straddled offender Loggins head. After the handcuffs was removed the offender was secure, At approximately 0607 Grenada Police Officers D. Tilley, M. Jones and H. Merriman exited the facility. Officers Hollis and Hankins and lifted Offender Loggins up off the floor and was assisting him to cell B-15 I had them bring him back to booking. At approximately 0609 I Sgt. Clark called EOC to have an Ambulance dispatched to the Grenada County Jail, EOC informed me Sgt. Clark that the EMT's that had been dispatched to the scene and had cleared him, at that time I stated that I wanted the ambulance at the Jail. I Sgt Clark contacted Warden Carver, Deputy Warden Adams a well as Sheriff Strider who asked to be kept informed. At Approximately 0613 hrs, I Sgt. Clark noticed that Offender Loggins eyes was half open, I checked for a pulse put my hand close to his mouth and nose to check for breathing and raised his shirt up to check for movement of breathing. I informed Sgt. Johnson that Offender Loggins was not breathing. Sgt. Johnson and Officer Harvey removed offender vest and cut his shirt to prepare for CPR, at that time I called EOC again and stated that the offender was unresponsive and that we need the ambulance ASAP. Deputy Warden was contacted again to report that Offender Loggins was now unresponsive and not breathing. At the approximate time of 0618 the EMT's arrived and began CPR on Offender Loggins. At that time Captain Justin Gammage from the Grenada Police Department Officer Alexis Jackson, Micheal Burnett and Dean Tilley enter the facility. At approximately 0635 hrs, EMT's exited the facility with Offender Loggins to UMMC of Grenada -----End Of Report-----

Notes

On the above date and time main control officer S. Mc Neil informed me the shift supervisor that E.O.C called and notified the jail that police officers where on the way with a violent offender, and need assistance upon arrival. Myself (SGT J. Johnson), and officer R. Harvey goes out to assist police officers bring in the offender. Officer Harvey, myself and police officers D. Tilley, and M. Jones carries offender R. Loggins into the building. I went to get the oncoming shift supervisor and officers for help with offender R. Loggins. Officers R. Harvey, F. Sanders, J. Hankins, L. Hollis, and myself and police officers D. Tilley, M. Jones, and H. Merriman, detains offender R. Loggins to exchange handcuffs and place on leg irons on the offender. Once finished Sgt Clark explained to police officers why we couldn't keep offender Loggins in custody, the police officers left and Sgt Clark made some calls to the deputy warden, then to the warden. After talking to the higher ups she was told to call the ambulance. After calling for paramedics, she goes over and starts to talk to offender Loggins and upon talking to him she notices that he was not responsive and informed me. Then officers J. Hankins, R. Harvey, L. Hollis and myself started to check for vitals. After checking for vitals, we prepared to perform CPR. Then EMT'S arrived and took over the scene. I got into ambulance for security on the way to the hospital, after arriving offender loggins was pronounced dead.

Notes

On the above date and time SGT J. Johnson called myself Officer R. Harvey to booking area and told me that E.O.C called had notified the jail that police officers where on the way with a violent offender, and need assistance upon arrival. At 05:58 SGT J. Johnson myself (Officer) R. Harvey and other officers along with several staff and police officers tried to remove the handcuffs from offender. Offender was still refusing to cooperate. Police were advised by SGT Clark that offender R. Loggins should be taken to the emergency room. Then after the police officers left a few minutes later offender R. Loggins stop breathing. The staff members and myself prepared to preformed C.P.R on offender R. Loggins. Then EMT's arrived and took over the scene.

	4 Original Incident / Offense		5 New Incident / Offense if Changed		5a From NCIC Code		5b To NCIC Code
	6 Has an Arrest Been Made?	7 Date of Arrest Month Day Year		8 Has a Warrant Been Signed?		9 Date Original Report Month Day Year Time	
	INSTRUCTIONS FOR FOLLOW-UP OR SUPPLEMENTAL USAGE:		Under Narrative, record your activity and all developments in the case subsequent to last report. Describe and record value of any property recovered, names and arrest numbers of any persona arrested. Explain any offense classification change. Clearly show disposition of recovered property and inventory numbers. Recommend to supervisor case status and to reviewer UCR disposition. Indicate "item number continued" at left, if any.				
NARRATIVE	<p>Officers of the Grenada Police Dept. were called to the area of 50 West Govan Street in regards to someone behind their house yelling. Once we got to the area of 50 West Govan St., Cpl. Merriman and Officer Tilley went to Bledsoe Street to see if they could who it was yelling. Capt. Gammage, Officer Jones and myself stayed in the area of Govan Street. We could hear someone yelling but could not pen point the location. Cpl. Merriman and Officer Tilley went behind 81 Bledsoe Street and that is when they saw who was yelling in the area. Officer Tilley stated that it was Robert Loggins that was yelling in the area and he was laying down on the ground in some tall brushes. Capt. Gammage, Officers Jones and myself walked around a house on Govan and made contact with Loggins. Loggins was ordered by all of us to show his hands, but he refused to do so. After telling him several time the taser was discharged to the under and low part of his back. The first contact with the taser was effective with neuromuscular incapacitation, but after the five seconds were over he would not comply with any orders he was then given two more cycles from the Taser. He then locked his arms under his body. Loggins was drive stunned. He was drive stunned Loggins two more exposures with the taser at 5 seconds each. He still would not comply with orders. After the taser showed no effect on him Officers went hands on. During the time Officers went hands on, Loggins bit Officer Tilley on his hand as Officer Jones and him were trying to place him in handcuffs. Capt. Gammage then drive stunned Loggin on his right biceps. Officers then to use physical force to remove his hands from under his body. Officers Tilley, Jones and Capt. Gammage had to physically remove his hands. They were able to place had cuffs on Loggins. He was then carried from the area and checked by EMS. EMS checked Loggins and the Taser probes were removed by EMS. He was transported to Grenada County Jail for booking and holding. Loggins is charged with the following: Disturbance the peace and Simple Assault of a Police Officer</p>

NARRATIVE	<p>On the above date and time, I responded to the area of 50 Govan Street in reference to someone screaming for help. Upon my arrival to 50 Govan Street, I could hear some screaming but could not make out where it was coming from. As Officer Tilley, Jones and Sgt. Woodall made the area, we could tell the screaming was coming from the area between Govan Street and Bledsoe Street. Myself and Officer Tilley went to Bledsoe Street. We found the screaming coming from directly behind 81 Bledsoe Street. Myself and Officer Tilley located Robert Loggins lying in the bushes on the South side of the fence behind 81 Bledsoe Street. Cpt. Gammage, Sgt. Woodall, and Officer Jones walked around a house on Govan Street and made contact with Loggins. They advised Loggins to put his hands up several times and he refused. Sgt. Woodall deployed the tazer into Loggins back. The tazer locked him up but when the 5 second cycle had ended Loggins began resisting, he was tazed 4 more 5 second cycles. Loggins continued to resist. Officer Jones, Tilley, Cpt. Gammage and Sgt. Woodall had to go hands on the effect the arrest. During the scuffle Loggins bit Officer Tilley. EMS was called to the scene to check Loggins out. EMS arrived on scene, they did not check any of Loggins vitals they just looked at him and said he was ok. Myself, Officer Tilley and Officer Jones dragged Loggins to the Patrol Car and put him in the car. Officer Jones transported him to the Grenada County Jail.</p>

Chapter 10

Use of Force

10.1 Purpose

It is the purpose of this order to establish guidelines and limitations for the use of force and deadly force for officers of this Department.

10.2 Policy

It is the policy of this Department that an officer's use of force will be that of a minimum to accomplish a legitimate police objective.

10.3 The Order

A. General Considerations: The nature of police work is such that, from time to time, officers find it necessary to use coercion and/or physical force in order to accomplish a police objective. The necessity for using physical force is recognized in both State law and Department policy. However, the need for restricting the use of force is also recognized and appropriate limitations are established accordingly.

B. Use of Minimum Force Necessary

1. The guiding principle by which an officer's use of force is judged allows the application of the minimum force necessary to accomplish a legitimate policy objective. It is incumbent upon the officer to assess each situation as to the necessity for the use of force and the degree of force required.
2. There are a wide variety of methods short of physical force by which an officer can influence the uncooperative subject to cooperate. These range from friendly persuasion to stern warning that continued resistance will mandate the use of physical force. When possible, an officer should seek to resolve the situation short of physically grappling with or striking the subject. However, should words prove ineffective, the officer is empowered to apply force, short of deadly force, to accomplish a legitimate objective. As a general rule, the force required to subdue a belligerent suspect should be escalated in priorities to accomplish the objective. Accordingly, the following priorities of force should be used as far as practicable in the order listed:
 - a. Friendly Persuasion
 - b. Come-Along-Hands
 - c. Chemical Agents
 - d. Police Baton
 - e. Deadly Force

C. Controlling the Human Factor

1. As difficult as it is to do, officers are required to divorce their human emotions from their professional duties when using physical force. The Police are, in many respects, uniquely empowered to apply physical force in the name of the law. That power carries with it a great deal of responsibility and mandated that it be used only for legitimate purposes and with professional restraint.
2. The police officer must be careful to control his own emotions when engaged in a physical confrontation. His handling of the situation will, in every respect, be scrutinized for overreaction or improper behavior. The subject with whom he is dealing can afford to be rude, arrogant, threatening, and verbally abusive - - the police officer cannot.

D. Reporting Use of Force: In as instant in which an officer uses significant physical force to subdue a subject, a written report shall be made detailing the circumstances.

1. If an arrest or crime report is submitted, the details on the use of force shall be included.
2. If no arrest or crime report is made, the circumstances regarding the use of force shall be documented on a Grenada Police Department's Use of Force form and submitted to the officer's supervisor.
3. Any time any force at or above chemical agents is used, a use of force report shall be completed (See example use of force form following this chapter).

E. Chemical Mace: Officers shall use chemical mace only when considerable force is necessary to subdue an individual and prior to the use of a police baton or in some cases, a firearm, if possible.

1. Officers should direct a stream of liquid into the subject's facial area for one (1) second. (Additional gas does not improve effectiveness but does increase the probability of a chemical burn.) The subject should be handcuffed as soon as possible after being subdued, but his face kept exposed to the air. He should be advised to blink his eyes and not keep them closed. Proper first aid shall be administered as soon as possible. As soon as the subject is cooperative, the affected area should be washed with tap water (not directly into the eyes).
2. The subject should be provided the opportunity and direction to cleanse the affected areas. The fact that the subject was advised of the cleaning procedures and given the opportunity to do so shall also be noted in the written report.

F. Police Baton: The police baton is the principal impact weapon. It is the intermediate stop between hand applied force and the ultimate force of firearms. Officers shall avoid the intentional striking of a subject in the head with the baton. When the baton is used, it should be used to poke or jab, not normally to strike. If due to circumstances the officer must strike, he should strike at the extremities of the combative subject. Officers shall never deliberately strike at the head of a subject.

G. Deadly Force

- 1. General Policy:** As long as members of the public are victims of violent crimes and Police Officers, in the performance of their official duties with deadly force, it shall remain necessary for Police Officers to be properly armed for the protection of society. The policy of the Grenada Police Department on the use of deadly force and the discharging of firearms shall be set forth herein, as defined in Tennessee vs. Garner.
 - a. Officers of this Department shall exhaust every other reasonable means of apprehension, restraint, or force before resorting to the use of firearms.
 - b. Officers shall not unnecessarily draw or display any firearm or carelessly handle a firearm at any time. The same rules of good judgment applicable to the discharge of a weapon shall also apply to the drawing and displaying of a weapon by an officer, whether on or off duty.
 - c. No warning shots shall be fired by an officer under any circumstances. An officer who fires a shot to warn or who otherwise discharges a firearm without proper justification, shall be subject to disciplinary action.
 - d. Officers shall not discharge firearms in connection with police activities, either on or off duty, except under the following circumstances:
 1. At an approved range.
 2. In the case of seriously wounded or dangerous animals after having received permission of a supervisor, when other methods of disposition are impractical.
 3. In defense, to overcome an attack which could produce great bodily harm or death to the officer or other person. Firearms, or any other deadly force, should be used only if the officer has no other means available to overcome the attacker.
 4. To effect the capture of or prevent the escape or rescue of a person whom the officer knows has committed a felony and where violence or where the potential for violence exists with the following limitations:

- a. The crime for which the arrest is sought involves the use or threatened use of deadly force.
 - b. There is a substantial risk that the person whose arrest is sought will cause death or serious bodily harm if his apprehension is delayed.
 - c. The firearm shall not be used under any circumstances where innocent bystanders are likely to be injured or killed.
 - d. The officer shall not shoot unless all other available means to effect the capture of the felon have been exhausted or would prove ineffective.
5. Any officer who discharges a firearm accidentally or intentionally while performing a police function, either on duty or off duty, shall make a verbal report to his supervisor as soon as circumstances will permit and a written report as soon as possible.

H. Juvenile Felony Suspects: An officer generally should not shoot at a fleeing felon whom he has reasonable grounds to believe is a juvenile. However, when the escape of such a suspect can reasonably be expected to pose a serious threat to the life of another person, then under these circumstances an officer may shoot to prevent the escape of such a person. This section does not limit an officer's right of self-defense or his defense of others whose lives he reasonably believes are in imminent peril.

I. Shooting at Fleeing Misdemeanor Suspects: Officers shall not intentionally use deadly force to effect the arrest of a misdemeanor suspect.

J. Shooting at Vehicles: Officers **SHALL NOT** fire at or from moving vehicles except in self defense, the defense of a third party, or to prevent the escape of a driver who is or would pose a threat to society.

K. Notification and Reports Required

1. Any time a police officer discharges his firearm, on or off duty, except at an approved range, a verbal report setting forth the full circumstances shall be made **immediately** to the on-duty supervisor, with a written report to follow. The following personnel shall be notified immediately by the on-duty supervisor when any shooting incident results in injury or death.
 - a. Assistant Chief of Police
 - b. Detective Supervisor
 - c. Chief of Police

2. The detective supervisor or other supervisor designated by the Chief of Police shall conduct a thorough investigation of any incident involving an officer-involved shooting. A full written report shall be submitted to the Chief of Police within 48 hours of the incident. If the investigation is not complete, a preliminary report shall be submitted.

L. Qualifications

Officers of this Department shall qualify semi-annually with all firearms they are authorized to use. Any officer who is issued a shotgun shall also fire the shotgun during firearms training for familiarization. Only officers demonstrating an overall proficiency with their authorized firearms shall be allowed to carry such weapons. Officers carrying any weapon other than Department issued must have written permission from the Chief of Police. Rifles are authorized upon successful completion of a rifle qualification course, instructed by a certified rifle instructor.

In order to qualify, each officer must shoot three qualifying courses and obtain an average score of 75% or greater. The courses shall be as follows:

Yards	-	Rounds	-	Seconds
7	-	6/6	-	15
15	-	6/6	-	20
25	-	6	-	20
15	-	6	-	10
7	-	6/6	-	15
7	-	1/1	-	6

M. Supervisor Responsibility

All supervisors shall ensure that each of their subordinate employees receives a copy of this directive and is thoroughly instructed in its content. Additionally, the range master shall instruct each officer on the contents of this directive at each weapons qualification training.

N. TAZER POLICY

1. **General Policy:** It is the policy of the Grenada Police Department to use only the level of force reasonably necessary to control or otherwise subdue individuals. The purpose of this policy is to set standards and control measures for deployment techniques, carrying techniques, and after deployment actions.

2. **Definitions:** M26/x26 Advanced Taser: The M26 and X26 Taser is a hand held battery operated unity designed to immobilize a suspect by means of electrical current.

3. **Deployment:** Deployment of the TASER will be evaluated using the criteria set in this directive and within the framework of the Grenada Police Departments Use of Force Matrix. Officers must assess the effectiveness of each application and determine whether further applications were warranted or a different tactic should have been employed. The decision to use the TASER will be dependant upon the actions of the subject, the threat facing the officer, and the totality of the circumstances.

4. **Guidelines:**

- a. An approved TASER device may only be utilized by officers that have successfully completed the department approved training in its use taught by an electronic device certified instructor.
- b. Uniformed officers will carry the TASER in a department issued holster. The holster will be carried on the duty belt opposite the duty firearm, cross draw position is optional. Non-Uniformed officers will carry the TASER in an approved holster on the side opposite the duty firearm or in a position that is dictated by the tactical situation.
- c. The TASER shall be carried fully armed with the safety on in preparation for immediate use.
- d. Officers approved to use the TASER shall be issued a minimum of one spare cartridge as a back up in case of cartridge failure, the need for reapplication, or in case the first cartridge's leads break during engagement. The spare cartridges shall be stored and carried in a manner consistent with training.
- e. Only agency approved battery power sources shall be used in the TASER.
- f. The TASER should be inspected prior to each tour of duty.

- g. An approved Grenada Police Department TASER exposure report shall be completed along with other department mandated use of force forms anytime a TASER is used, except in training.
- h. All unintentional discharges shall be reported to a supervisor for evaluation.
- i. In preparation of firing, when reasonable, the TASER shall be pointed in a safe direction, taken off safe and then aimed. Center mass of the subjects back is the primary aiming point, and center mass of the chest or legs are secondary targets.
- j. Prior to use, if practical, a warning to the subject of the officer's intentions to use the TASER should be given.
- k. Taser probes may not be intentionally fired at the face, head, neck, or groin; unless the use of deadly force would be justified.
- l. Jail/Detention personnel shall be notified at the time of booking that the subject has been exposed to the TASER.
- m. Officers shall evaluate all subjects against whom the TASER has been deployed, and shall provide emergency medical treatment if necessary. If the TASER probes have penetrated the skin in a sensitive area (head, neck, groin, or breast of a female), or if officers have difficulty in removing the probes (i.e. probe/barb separation), Emergency Medical Personnel should be called to the scene to remove the probes or the subject will be conveyed to an emergency room for removal. If the probes are embedded in non-sensitive area, a trained officer may remove the probes on scene.
- n. After the TASER is deployed, probes should be removed from the suspect as soon as he/she is handcuffed.
- o. When the TASER has been operationally, the officer's supervisor will collect the air cartridge, wire leads, darts, and as many of the AFID Tags as possible for evidence logging and process as such.

5. **Prohibited Actions:**

- A. The following actions are prohibited uses of the TASER, unless exigent circumstances are present.
 - 1. Against handcuffed subjects
 - 2. At or from a moving vehicle
 - 3. At subjects known to the officer to be pregnant
 - 4. At subjects who are known to be physically disabled and/ or suffering from a debilitating illness
 - 5. Against juveniles
 - 6. Against animals
- B. The TASER shall not be used under the following circumstances:
 - 1. For coercion or intimidation
 - 2. To escort or prod subject
 - 3. To awaken unconscious or intoxicated subjects
 - 4. When the officer knows or suspects the subject with flammable liquids or is in a flammable atmosphere.
 - 5. When the subject is in a position where a fall may cause substantial injury or death.

6. **Supervisor Actions:**

- A. Supervisors of officer that deployed TASER shall respond to scene of deployment and be responsible for collecting all evidence from deployment and be responsible for collecting all evidence from deployment (i.e. spent air cartridge(s), darts, and AFID tags).
- B. Download the data record of the TASER prior to the end of the shift of which a reported use of the TASER occurred and save the data to the appropriate file.
- C. Download the data record of each TASER under their command annually regardless of reported use.
- D. Review Grenada Police Department TASER Exposure Report, if correct, place in Assistant Chief of Police box for review and record.

Less Lethal Impact Devices

Purpose

To establish guidelines for the deployment of less lethal impact projectiles (bean bags, etc.)

Policy

Sworn officers of the Grenada Police Department may deploy lethal projectiles (such as bean bags) as an alternative to lethal force whereby combative, non-compliant, violent, emotionally disturbed, or armed subjects may be brought under control without permanent injury to themselves or officers involved in the deployment of the devices. These devices may also be used in civil disturbances/riots.

Definition

Less Lethal Projectiles - Commonly referred to as bean bags or rubber bullets. They are designed to inflict discomfort to a combative subject so that they are temporarily incapacitated without serious permanent injury or death so they can be taken into custody. Primary types are 12 gauge and 37/40 mm.

Order

- (A) Less lethal projectiles may only be deployed from a weapon suitable for firing such projectiles.
- (B) Only officers who have successfully completed a certified training program may be allowed to deploy such munitions.
- (C) When a situation justifies the use of less lethal munitions, officers should determine which type of munition would be the most effective to render the situation under control with minimal injury to the suspect.
- (D) Only Department issued less lethal projectiles shall be authorized for deployment.
- (E) When preparing to deploy less lethal projectiles, the officer should keep in mind the primary and second target areas.
 - 1. Primary Target Areas - These are major muscle areas of mass such as the legs, arms, buttocks, hips and thighs. These areas offer a low probability of causing serious injury.

2. Secondary Impact Areas - These are areas of the human body considered to be the center of mass areas, such as the abdomen and chest areas. These areas should be considered for impact only when as escalation of force and immediate incapacitation is necessary and appropriate. An increase in the potential for death or serious physical injury must be recognized.
 3. Deadly Force Impact Areas - These areas of the body, when struck, may cause serious injury or death. These areas include the head, neck, throat, and groin.
- (F) Once the determination is made to deploy less lethal projectiles, permission must be obtained from the supervisor in charge.
- (G) Upon deployment of less lethal projectiles and the suspect has been placed in custody, it is imperative the prompt medical treatment be administered to the suspect and photographs taken of the injured impact areas.
- (H) Once a situation has been resolved, a detailed incident report and a Use of Force report shall be completed as soon as possible.
- (I) It shall be the responsibility of each officer who utilizes less lethal munitions to ensure the weapon is not at any time loaded with both lethal and less lethal rounds.
- (J) When deploying less lethal projectiles, common sense should be used as to the condition of the suspect and the effect the round could possibly have. Subjects who are elderly, pregnant, physically disabled or extremely young should not generally be considered as a target unless extreme circumstances prevail the use.
- (K) Any time an officer is preparing to deploy less lethal munitions a cover officer shall be present at all times.
- (L) Prior to deploying less lethal munitions, the officer shall notify all officers in the area that less lethal impact rounds are about to be deployed so that the shot will not be a surprise to them.
- (M) A use of force report will be completed any time less lethal impact devices are used. (See example use of force form following this chapter).

Patrol Rifles

Purpose

To establish guidelines in a lethal force situation whereby a patrol rifle may be deployed in order to eliminate a threat of the officer's and/or public's safety.

Policy

Sworn officers of the Grenada Police Department (full time and part time) may be allowed to carry a personal or City issued patrol rifle while in the performance of their duties.

Order

- (1) Patrol rifles will not be considered as a primary shoulder weapon.
- (2) All Patrol rifles will be carried in a carrying case and shall be stored in a secure area of a patrol unit. The patrol rifle will be stored without a round in the chamber and with the safety on.
- (3) Each officer who wishes to carry a patrol rifle will have completed a qualifying course and achieved a passing score. This course will be administered by a certified patrol rifle instructor.
- (4) Each officer must re-qualify semi-annually with their patrol rifles.
- (5) Patrol rifles must be a military style or law enforcement approved version such as an AR-15, M16, Mini 14, etc. and have the written approval of the Chief of Police.
- (6) The caliber of these rifles will be .223 or .308.
- (7) Only ammunition authorized by the Chief of Police may be carried in patrol rifles.
- (8) Each patrol rifle must have the manufacturer's fixed sights. Telescopic sights, red dots, etc. are authorized as long as the fixed sights are still visible during deployment.
- (9) Patrol rifles will remain in a secure area of a patrol unit unless a situation occurs whereby the officer's safety is compromised or with a supervisor's permission to deploy.
